

Chamber of Commerce Group Insurance Plan

"The Big Insurance Plan for Small Companies"

One of the difficulties faced by entrepreneurs planning to set up a small business is the loss of the group insurance offered by their present employer. This has recently become more acute with the current trends towards downsizing of their employees and outsourcing of their production.

The Canadian Chamber of Commerce and the Brockville and District Chamber of Commerce offer group benefits to companies of 1 or more persons. This plan offers such emerging businesses with the opportunity to purchase the following benefits:

1. Life Insurance and Accidental Death and Dismemberment
2. Short Term Disability
3. Long Term Disability
4. Extended Health Care
5. Dental
6. Employee Assistance Plans
7. Office Overhead Coverage

In addition to the aforementioned, the small business owner can make plans for retirement through a Group Registered Retirement Plan, designed specifically for this market.

These benefits have been designed to provide **Full Benefits** at a premium level that is both **affordable** and **sustainable**.

More information on this plan is available at www.chambers.ca or by contacting Doug Phillips or Gord Phillips
