Dear MPP Clark

The Ontario Chamber of Commerce released a report in early July 2015 on the electricity system in Ontario and the importance of government leadership in helping businesses address energy costs. The Empowering Ontario report reflects the concerns of Ontario's business community and aims to generate greater awareness of the challenges faced by Ontario business with regards to the cost of electricity.

The Ministry of Energy did send a letter to the President of the Ontario Chamber, Allan O'Dette, commenting on the top five recommendations. Before I post this report and letters on the Brockville & District Chamber of Commerce website we would welcome your view points on the recommendations and/or any updated information that we can provide to our business community.

We have attached the report, letter from the President of the Ontario Chamber of Commerce and the response letter from Minister Bob Chiarelli.

We look forward to your comments and reply.

Regards,

Pamela Robertson

Executive Director

Brockville & District Chamber of Commerce
